ICMA Credentialed Managers and Candidates

Congratulations to the following Kansas managers who have earned the ICMA-CM (ICMA Credentialed Manager) or the ICMA Credentialed Manager Candidate designation as part of the ICMA Voluntary Credentialing Program. Candidates are members who are within two years of meeting the criteria. When the experience requirement is met, these members will become ICMA Credentialed Managers. The designation indicates that a member is qualified by a combination of education and experience, adherence to high standards of integrity, and an assessed commitment to continuous learning and professional development. To maintain the credential, members must submit an annual report describing 40 hours of professional development during the previous year.
